Department of Information Technology

NBA Accredited Course (Dated 01/07/2024 to 30/06/2027)

## Post Event Report

**Name of the Event:** TechSpark

**Date of the Event :** 04th September, 2024

**No. of Students:** 54 students

**Location of the Event:** Room no.203, 102, 112, VPPCOE & VA..

**Event Co-ordinator:** Prof. Priyanka Manke

### Event Summary:

The "**TechSpark**" event, held on 4th September 2024 at VPPCOE & VA, provided a platform for students to exhibit their technical acumen and creativity through a series of well-structured rounds. The event commenced with a challenging crossword competition, engaging 28 teams in a test of their problem-solving abilities. This was followed by the "Design Maestro" round, where 16 teams showcased their web development skills by creating Teacher's Day greeting cards using HTML and CSS. The final round was a quick-fire technical quiz, assessing participants' knowledge and agility. The event successfully highlighted students' diverse technical talents..

### Event Proceeding:

The event began with a formal introduction, where the participants were briefed on the rules and regulations of the competition. They were informed about the structure of the rounds and the expectations for each stage, ensuring clarity and uniform understanding among all teams. This introduction set a clear framework for the event, enabling participants to approach each round with confidence and focus.

Following the orientation, the competition unfolded in a series of structured rounds, each designed to test different skills and knowledge areas. The rounds were:

- **Word Switch:** This round featured a technical crossword challenge with 28 teams competing against each other. In this round, participants were given a series of clues related to technical concepts, which required them to use their problem-solving skills and industry-specific knowledge to complete the crossword puzzle. The challenge was designed to test their familiarity with technical terminology and

their ability to think critically under time constraints. The successful completion of this round demonstrated the participants' foundational knowledge and analytical capabilities, setting a competitive tone for the subsequent rounds.

- **Design Maestro:** In this round 16 teams demonstrated their web development skills by creating Teacher's Day greeting cards using HTML and CSS. This round evaluated the participants' creativity, technical proficiency, and understanding of design principles. Their ability to combine aesthetic appeal with functional design was crucial in this assessment.
- **Quick Fire Quiz:** This round brought 5 teams to compete in an intense and rapid-fire technical quiz. This round challenged participants with a broad array of questions covering various topics in engineering and technology. The format required teams to think quickly and provide accurate responses under pressure, testing their depth of knowledge and ability to perform in a high-stakes environment.

The event concluded with a formal vote of thanks from the organizing committee acknowledging their hard work and contributions throughout the competition.
