

Post Event Report

Name of the Event: API 101: Master API Fundamentals with Postman.

Date of the Event: 25th September, 2024

No. of Students: 136 students

Location of the Event: Seminar Hall, VPPCOE & VA.

Event Summary:

The "API 101: Master API Fundamentals with Postman" workshop, conducted by Mr. Anas Khan, Frontend Engineer at LottiePro - PSL and an expert in API development and testing, was an exclusive event organized by the Information Technology Student Association (ITSA) in collaboration with the ISTE Committee. The workshop aimed to provide students with hands-on experience in mastering API fundamentals using Postman, a widely-used platform for API development and testing.

Event Proceeding:

The event began at 11:00 a.m. in the Seminar Hall with an introduction of an event by the ITSA Committee. Mr. Anas Khan was warmly welcomed to VPPCOE & VA, where he proceeded to deliver a detailed and insightful session on API development. His extensive experience and interactive teaching style immediately engaged the students, making the session both informative and enjoyable.

Mr. Khan started by explaining the core concepts of API architecture, the role APIs play in modern software applications, and the significance of effective API testing. He provided a comprehensive walkthrough on how to use Postman to create, test, and document APIs. The session covered essential topics such as HTTP methods, request headers, response status codes, and working with JSON data in API calls.

Throughout the workshop, students were encouraged to follow along with live demonstrations and participate in practical exercises using Postman. This hands-on approach enabled students to not only understand the theoretical aspects of API development but also apply them in real time. Mr. Khan also shared valuable industry insights on best practices for building and maintaining APIs, emphasizing the importance of efficiency and security in API design.

The session concluded with an interactive Q&A, where Mr. Khan addressed various questions from the students, offering additional tips and advice. His expertise and approachable nature inspired students to explore the field of API development further.
