# Post Event Report

**Name of the Event:** Network Bulls IV

**Date of the Event :** 28th December, 2024

**No. of Students:** 27

**Location of the Event:** Gurgaon, Haryana.

**Event Coordinator:** Prof. Darshana Gajbhiye & Prof. Ashwini Mulik

## Event Summary:

On December 28, 2024, a group of 27 students from the Department of Information Technology (IT) at VPPCOE & VA, accompanied by faculty members Prof. Darshana Gajbhiye and Prof. Ashwini Mulik, embarked on an insightful industrial visit to **Network Bulls** located in Gurgaon, Haryana. The visit provided a valuable opportunity for the students to gain hands-on experience and deepen their understanding of current network technologies and practices in a real-world setting.

## Event Proceedings:

The visit began with a warm welcome from the Network Bulls team, who gave an extensive presentation about the company's expertise in networking solutions and services. They highlighted the various aspects of the network infrastructure, including the latest technologies, certifications, and training programs offered by Network Bulls. This session provided the students with a clear understanding of industry standards and the skills required to excel in the network engineering field.

The BE students had the opportunity to get practical, hands-on experience with network devices and setups. They worked directly with equipment, gaining firsthand knowledge of network configurations, troubleshooting, and management techniques, which are crucial for their future careers in IT.

Meanwhile, the TE students attended an in-depth session focused on current network technologies, including discussions on emerging trends and network security protocols. This session allowed them to connect theoretical knowledge with real-world applications, broadening their perspectives on the future of networking.

As part of the visit, all students were given a tour of the Network Bulls office, where they observed the operational environment and learned about the company's daily processes. The office tour offered a glimpse into the working culture and collaboration within the company.

To mark the successful completion of the visit, all participating students received appreciation certificates from Network Bulls, acknowledging their active participation and engagement. The visit ended with a sense of fulfillment, leaving the students with valuable insights into network technologies and the professional world of IT.
